G	compulsive eating-eater	Yes	Yes	using both terms is inclusive, single term is exclusive/if this were adopted, would we change OA's name next?/it's impotant for self-esteem/nitpicky/

I	tool-a plan of moving	Yes	Yes	concern that this tool would trigger exercise bulimia and compulsive exercisers/don't like the name/ physical activity is important for good health but it need not be a tool/how about a pamphlet, instead? it does not rise to the same level as the other tools/if we wanted a new tool, "prayer and meditation" makes more sense than "plan of moving"/
